    To intensify the clinkering process, to improve the structure of portland
    cement, and to increase the activity of the clinker, the raw
    material mixt. for portland cement production contained:
    nepheline slime 50-5, limestone 40-5, and granulated Cu
    slag 3-5 wt. %. The latter was used as an activating additive.
   raw materials portland cement clinker; portland cement
    clinker raw materials; clinker portland cement raw materials
IT
    Limestone, uses and miscellaneous
    RL: USES (Uses)
       (cement clinkers, contq. nepheline and copper
       slag activators)
IT
    Cement
       (clinker, from limestone-nepheline mixts. with copper
       slag activators)
